ATELIERCOLLECTION 2026

FOREWORD

Dear Friends of Lotos Goldbrillen,

Before you unfolds a new journey through our LOTOS eyewear collection from the 2026 annual catalogue. Once again, we have carefully selected an array of truly special pieces—each imbued with profound value and crafted with our utmost care and precision.

We are delighted to be presenting this year's catalogue in collaboration with cherished friends. I extend my sincere appreciation to the Yau family, Mr. Julian Yau, and his talented colleagues for their inspired contributions.

It is always a quiet joy for me to see how the most meaningful creations come to life only through the shared efforts of individuals. In a world where technology and artificial intelligence can handle routine tasks, it is a gentle reminder that the essence of fine craftsmanship—and its artistic portrayal in images and media—relies on the simple essence of human imagination, vision, and passion.

Please delight in the most valuable pieces from this year's LOTOS eyewear collection, where true distinction shines from our foundational models of the Executive Collection to truly one of a kind treasures in the One of One gallery.

I wish you a rewarding and inspiring exploration, and I look forward to connecting with you again “vor Augen.”

Yours Truly,
Stephan Schmidt

THE ETERNITY - 10TH ANNIVERSARY

LOTOS honors the 10-year anniversary of its iconic Eternity design with this incredible commemorative One of One piece. Originally conceived to redefine traditional jewelry settings in modern design, the Eternity transforms temples into canvases of light.

Each year, LOTOS unveils new additions to the Eternity family within its esteemed jewelry collection.

Every iteration is a labor of love and devotion, crafted from carefully sourced gemstones hand-selected for their perfection. LOTOS's master artisans devote hundreds of hours to each piece, ensuring every angle reflects the brand's unwavering pursuit of artistry. This One of One piece is dedicated to those who have appreciated the artisanship of this expansive jewelry series.

Its yellow gems signify hope for a prosperous future for LOTOS jewelry and the brand, with more successful collections to come.

SERPENTINE

Made of 774 brilliant-cut diamonds (3.95 carats), 227 brilliant-cut natural brown colored diamonds (1.88 carats) and 4 marquise-cut diamonds (0.19 carats), the Serpentine stands as one of LOTOS's most ambitious creations, featuring a streamlined serpentine pattern. This elegant serpent design gracefully wraps around the temple arms, paying homage to the ancient Greeks' profound reverence for snakes, viewing them as powerful symbols of strength in golden artifacts.

The design inspiration for the piece draws from pure gold relics of the Hellenistic period, specifically a unique bracelet antique created in the 3rd century BC (and now housed in the Schmuck Museum in Pforzheim, Germany, adjacent to the LOTOS workshop.) The snake embodied themes of rebirth, immortality, and medicine in ancient Greek culture.

RAMSES

The One of One Ramses is an exquisite piece of jewelry inspired by the legendary Ramesses II, regarded as the greatest pharaoh of ancient Egypt’s New Kingdom, whose divine authority was symbolized by the iconic false beard—an emblem of godly power associated with deities like Osiris and Ra, traditionally crafted from prestigious gold to affirm the ruler’s intermediary role between heaven and earth.

Drawing from this ancient tradition, the piece features 46 meticulously tapered baguette-cut diamonds totaling 8.95 carats, a brilliant evolution of the classic 1920s-1930s baguette cut where edges gracefully converge inward to form an elongated trapezoid shape, prioritizing unparalleled clarity, lustre, and elegance through the step-cutting method rather than fiery brilliance. Handcrafted with extraordinary precision by LOTOS technicians, each diamond’s uniform size, shape, and engraved outer canal—maintaining consistent length and gradient—represents a triumphant feat of artistry, transforming the pharaoh’s symbolic beard into a modern testament to timeless power and sophistication.

BLUE MAURITIUS

The Blue Mauritius is an unparalleled masterpiece of captivating beauty, drawing profound inspiration from the legendary 1847 postage stamp issued by the British colony of Mauritius—an island gem in the Indian Ocean—that has ascended to iconic status as a symbol of extraordinary rarity and timeless value, transforming a once-mundane piece of paper into a cultural touchstone featured in tales like Sherlock Holmes, embodying how scarcity elevates the ordinary to the sublime.

This exquisite creation enchants with 266 brilliant-cut diamonds totaling 3.64 carats, their scintillating fire and sparkle evoking a mesmerizing dance of light, complemented by 130 princess-cut sapphires at 2.87 carats that radiate deep azure hues with their square facets and graceful modernity, and accented by 2 baguette-cut sapphires weighing 0.30 carats for a sleek, linear elegance that enhances the overall harmony. Meticulously handcrafted, the piece features a massive chaton setting with every prong painstakingly formed by skilled artisans on a gracefully curved surface, resulting in a breathtaking fusion of historical reverence and aesthetic splendor that captures the stamp’s elusive allure in a symphony of radiant color and luminous allure.
